PSI Global Ltd. is committed to the protection of the environment as well as a commitment to the prevention of pollution resulting from our activities.

We are also committed to the management, control and when feasible the reduction of our environmental impacts associated with the manufacture of our injection moulded filtration products.

This commitment extends to all aspects of our business.
In conducting our activities, we shall:

- 1 Ensure compliance with relevant legislative and any other requirements.
- 2 Ensure that we set environmental objectives that will reduce our environmental impact with a commitment to continual improvement.
- 3 Ensure we identify our environmental aspects and aim to improve the impact of these aspects when possible.
- 4 Take a proactive approach in the protection of the environment seeking methods that prevent unnecessary pollution as well as ensuring:
 - a) Minimise the use of natural resources, while maximising the use of reclaimed and recycled materials within all departments.
 - b) Ensure the disposal of all waste in an environmentally responsible manner in accordance with legislative obligations.
- 5 Monitor performance against environmental objectives supported by quantifiable targets that relate to the reduction of environmental impact, sustainability, risk management and comply with the needs of our clients and stakeholders through our environmental SHEQ team and Management.
- 6 Complete regular audit and monitoring programmes to ensure that we comply with all policies and procedures, taking immediate action to rectify noncompliance and to ensure our commitment to the continual improvement of the EMS with the aim to enhance environmental performance.
- 7 Ensure the policy will be made available to the public.

The Management of PSI Global Ltd is fully committed to this Policy. Employees at all levels are expected to carry out their work activities within the context of this Policy and associated Procedures and to co-operate in organisation efforts to improve our Environmental Performance.
